Weekly = hourly × hours, with hours over 40 at 1.5 × the hourly wage (non-exempt employees, 29 U.S.C. § 207); annual = weekly × paid weeks. The pay periods divide the annual pay, so they match the paychecks only when every week is paid. Federal salary level $684 a week (U.S. DOL, 29 CFR 541.600); Maine $905.79 a week from January 1, 2027.

Below the salary level, the standard federal exemptions do not apply and overtime is owed after 40 hours a week, except for the jobs with no salary test: outside sales employees, teachers and practicing doctors and lawyers (29 CFR 541.500(c) and 541.600(e)). At or above the level, the duties test still decides whether an employee is exempt.
